

# CONQUERING BAJA!

At the Baja 1000, the ITP/Carlisle Teryx went from start to finish on one set of BajaCross tires and T-9 Pro Mod wheels (with T7 Beadlock rings).

Right: Team Green Kawasaki DragonFire dominated both the Baja 500 and 1000 on BajaCross tires! They used ITP's T7 Beadlock wheels at the 500, and the new T-9 Pro Mod wheels at the 1000. Congratulations to Larry Roeseler, Reid Nordin, Todd Romano and Hans Waage.

THE ALL-NEW T-9 PRO MOD SPUN ALUMINUM WHEEL IS THE STRONGEST AND LIGHTEST UTV WHEEL AVAILABLE TODAY! 12x7, 14x7
