

ITP SS108 WHEELS & TERRACROSS R/T TIRES

THE PRODUCT: ITP's SS108 aluminum wheels are made for utility ATVs and UTVs, and combine rugged strength with light weight in a very attractive package. The offset wheels we received from ITP gave our RZR a total of almost five inches of added width, which aids in stability and traction. We tested their 12-inch aluminum rim wrapped in 25x8R12 fronts and 25x10R12 rears. The Terracross radial tires feature a super-deep lug pattern and aggressive tread for maximum traction on any surface, and the tires look as mean as they feel. With six plies, these tires are as tough as they come.

CONSTRUCTION: The wheels are cast aluminum, powdercoated black with a chrome plastic center cap, imitation beadlocks and chrome steel lug nuts. ITP uses custom 24x10 thread pitch lug nuts that are custom-made for the RZR. The eight-spoke SS108 wheel is so strong that ITP offers a lifetime structural warranty.

PERFORMANCE: We wanted the RZR to be a little wider than stock, because the standard 50-inch width is a little narrow for fast-paced riding. We didn't want to have to resort to using wheel spacers or expensive suspension packages, so offset wheels seemed like the way to go. While they won't give you the extra foot of width that the RZR really needs, these wheels do help quite a bit. The tires also bite harder, so we had to click our suspension preload up a couple notches to handle the increased traction. The look alone is worth the price, in our opinion, because these wheels stand out, even with their satin black finish! They turn heads wherever we go, and the added stability backs up the great looks.

THE VERDICT:

Worth every penny. ITP's wheels and tires are all top of the line, and these are no exception. ITP offers many wheel and tire combos, as well as different finish options on the rims, so you can find the perfect match for your own machine. Pair it up with their lifetime warranty and strong performance, and we're convinced that there may not be a better deal out there!

RATING ★★★★★

PRICE: SS108 BLACK 12x7

WHEELS: \$79.95 ea.

25x8R-12 Terracross R/T

TIRE: \$113.95 each
